Hudec Dental Norton Office Celebrates Alive for Five

Cleveland, OH (2-1-19) – Hudec Dental’s Norton office has reached a milestone this February, celebrating 5 years of business. The company has grown from the dreams of founder/President, Dr. John A. Hudec, to a company with 20 locations throughout Northeast Ohio.

Over the years the Norton office has grown in many ways along with being a good beginning and continuation for our staff. The Norton office is the 17th Hudec Dental office to open and is proud to have served the people of Norton for the past 5 years and many more years to come.

To celebrate, Hudec Dental is inviting employees, current patients and new patients to take advantage of the festivities taking place at the Norton office throughout the week of February 11th – February 14th. The week will be full of different types of contests, celebrations and gifts for our patients during that week.

Hudec Dental continues to improve their services by providing a knowledgeable and experienced team of dental professionals who operate with the latest technology and services available. Hudec Dental’s ability to provide dental care for our patients and their families is the reason for our existence.

About Hudec Dental

Since 1977, we’ve built our foundation in Northeast Ohio on the sole purpose *to improve the quality of life of those we serve*. We are driven by our work and are equally passionate about delivering value to our patients. It is with that mindset that we not only take pride in our dental care services but also work to develop and maintain personal relationships with our patients. We have created a team that is made up of knowledgeable and experienced dental professionals who operate with the latest technology and services. You can put your trust in Hudec Dental to give you the best dental care every time you choose to come and see us.
